Art Series 5D Art

MOKAY® 5D Art is a sophisticated decorative coating system designed to create dynamic visual depth through light, texture, and layered artistry. Inspired by contemporary architectural expression, it transforms flat surfaces into visually engaging features that respond beautifully to changing lighting conditions.

Through the use of multi-layer techniques and micro-reflective elements, MOKAY® 5D Art delivers subtle shimmering effects and organic movement across the surface. As light shifts and viewing angles change, the finish reveals varying highlights and depth, creating a refined sense of motion and dimensionality without appearing overpowering.

From soft, atmospheric finishes to more expressive artistic statements, MOKAY® 5D Art offers designers and homeowners the freedom to craft distinctive feature walls that feel modern, elegant, and visually alive. Its controlled sparkle and layered texture bring a sense of sophistication while maintaining balance within the overall space.

Developed with professional application in mind, MOKAY® 5D Art features a workable consistency that allows skilled applicators to precisely control texture, pattern, and reflective intensity. This ensures consistent, high-quality results across residential, commercial, and feature-focused interior environments.

At MOKAY® Malaysia, we view surface finishes as an essential part of spatial storytelling. MOKAY® 5D Art reflects our commitment to delivering architectural coatings that elevate visual impact through craftsmanship, material innovation, and thoughtful design.

Experience the transformative power of light and texture with MOKAY® 5D Art, and turn walls into expressive surfaces with depth, movement, and lasting visual presence.
