Chalking

Scope of Application

Diamond Master Snoflex is suitable for painted walls to address mold and water seepage issues. It can also be applied on stone, metal, wallpaper, fabric, and other wall decoration materials, making it widely applicable for both interior and exterior walls.

Ready to Use & Easy Application

APPLICATIONS :

- ✓ Suitable for wall painting, addressing mold and water seepage issue.
- ✓ Can also be applied on plasterboard, metal, wallpaper, fabric wall coverings, and other wall decoration materials.
- ✓ Suitable for both interior and exterior walls.

Extensive Color Options

Choose from a diverse range of colors.

Number of Coats

Apply one coat of primer, followed by two coats of topcoat.

Application Method

Brush or roller application.
The primer can be used after stirring evenly.
After the topcoat is mixed evenly, it can be applied directly to the wall.

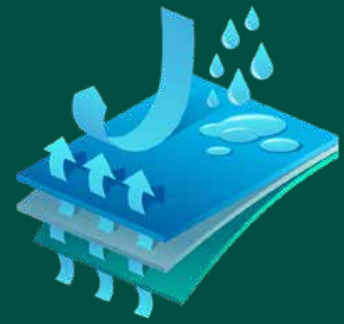

Coverage Rate

The actual coverage area may vary depending on the application method and the evenness of the surface.

Waterproof & Moisture Barrier

Made with high-quality emulsion, offering high strength & good flexibility. It can effectively repair fine cracks in the base layer.

High Hardness Level

Compared to traditional waterproof coatings and bathroom renovation paints, Snoflex has higher hardness and does not leave marks from normal scratches.

Scrub-
Resistant

Scrub-resistant & Wear-Resistant.

Shockproof

Durable coating, withstands daily cleaning.

Dirtproof

Shiny bathroom, long-lasting surfaces.
