-  Anti-Fungal Protection
-  Low VOC & Odorless
-  Artistic finish & colors
-  Effortless Maintenance
-  Eco-friendly & Water-based
-  Long-Lasting Beauty

Concrete Art Application Technique

Begin by masking off the edges of the surface using tape, paper or plastic to protect areas not intended for painting.

Thoroughly clean the substrate to remove any grease, dirt and dust, ensuring a clean, dry and solid surface for smooth application.

Primer

Apply a 1-2 layers of primer onto the substrate with roller. Let it cure for 1 hour.

Texture & Pattern

Continuously repeat the motion until desired texture is achieved, ensuring it's completed before the paint dries.

Texture Coat

Apply first layer of texture (B) onto the substrate evenly with a trowel, make sure to cover the entire surface.

Top Coat

Apply top coat (C) with a brush or trowel.

Texture & Pattern

Apply second layer of texture (B) with trowel, and perform random direction motion to create desired texture.

Recommend Tools: Roller, Trowel

IMPORTANT:

Color variations may occur based on application technique and the quantity of material used.

10L DIY Pack

Material	Packing	Coverage (per liter)
Primer	4L	Coverage up to 280sqft
Texture Paint	4L	
Top Coat	2L	

2.5L DIY Pack
